

U
Dear Mr. Curry,

7/9/94

Although you said to keep any overpayment, the prices I gave you included domestic postage so you paid for postage twice. My wife will calculate and enclose a check. We'll not know the correct charge until we get the receipt the day after placing the package in our rural box.

Please excuse my typing. It cannot be any better. Much as I'd like it to be!

Suggesting someone here who would be interested in factual information about the JFK assassination is not easy. Most of those interested in it regard themselves as Sherlock Holmes returned and most are Keystone Kops, junior grade, and apprentices at that.

The major media usually ignores all criticism of the official mythology. There has not, for example, been a review or even a mention of Case Open. Yet almost all went ape for Posner's successful dishonesty. I know of not a single instance of any real checking and only one of superficial checking.

It may not be impossible but I think there will not easily be any major media interest. There is one reporter who may be an exception. He is on sabbatical that should soon be over.

If the time comes when you feel you can tell me what it is I may perhaps get an idea from the information.

But I do think that you also should do, rather have some checking for which you probably are not prepared. What may seem to be reasonable may in fact be impossible. You cannot really judge from most of the books.

If NEVER AGAIN! were available I think you could see this easier. I have no idea when it will be published. The reason given for delaying it still again, now until not before next March, is false. But at 61 and in impaired health there is little I can do about that.

It begins by documenting that there was an immediate official determination not to investigate the crime itself. And it wasn't. So there are no leads in any known official information to follow. That decision was made as soon as Oswald was killed.

Case Open, by the way, was butchered. It is about 3/4 of what I wrote, too.

If I can be of any help, I'll try to be.

Particularly because of your background I suggest that you first read the transcript of the 1/22/64 executive session in Post Mortem, pp 475 ff, only 14 pages, and then read the books as they appeared. I think that transcript will give you an understanding of the Commission that will help understanding.

I will regard your letter as confidential and have so marked it.

Thanks and best wishes,

Harold Weisberg
